

## IMPORTANT NOTES:

- Do NOT even attempt to try and register on a mobile phone – please use a laptop or desktop. Chrome seems to be the best web browser to use.
- If you have previously tried to register and ran into problems, please completely log out and clear your browser so that it forces you to login in again when you next try. If you don't logout it will just mean the system may find asks you to login during the process.
- For any player registering for U10 and up in age, please have a player photo (headshot) already downloaded onto your computer just to make that step in the process easier.
- Please select the correct age group and also do not choose “Mixed” if you want to play “Girls” only and if you are a Development player, please choose JDL or SL instead of Mixed. If you register in the wrong age group you will most likely get a warning saying “You are not eligible for this product”
